## REPORT OF THE COMMITTEES OF THE BOARD OF TRUSTEES

### Academic Affairs Committee—Faculty Constitution and Bylaws

In the absence of Dr. Keto, chairman, Mr. White reported. On May 3, 1973, the members of the Academic Affairs Committee of the Board of Trustees met with Dr. Ira Fritz, vice-president of the faculty, and discussed the proposed revisions of the faculty constitution and bylaws. Copies noting the changes were distributed to the members of the committee. The changes were explained by Dr. Fritz. Since the faculty had not voted upon this revised version, Dr. Fritz requested that the committee approve the document in principle so that the faculty could vote on the revision at the general faculty meeting. On May 8 such affirmative approval was subsequently voted at the general faculty meeting, and Mr. White recommended that the board approve the attached constitution as adopted by the faculty.

Reverend Lucas moved the approval of the Faculty Constitution and Bylaws as adopted by the faculty at its meeting on May 8, 1973. The motion was seconded by Mr. Rike and by voice vote the Faculty Constitution was unanimously approved.

Mr. White further recommended that three faculty members be appointed to the Academic Affairs Committee of the Board of Trustees and that a referral be made to the Steering Committee of the Academic Council for the appointment of the three faculty members.

Mr. Ross moved that three faculty members be appointed to the Academic Affairs Committee. Mr. Jeffrey seconded the motion which was unanimously approved by voice vote.

The membership of the Academic Council in operation on the day of adoption of this Constitution and Bylaws shall continue in office, except that the office of each member serving the last year of his term shall be subject to election, as provided in Article III.

### **Building and Grounds Committee**

Mr. Crowl reported that on May 24, 1973, the Building and Grounds Committee met at Wright State. Mr. Crowl asked Mr. White to report on the topics that were discussed and Mr. White reported as follows:

#### *Easement for Marathon Development*

At the April 11, 1973, meeting of the board, the vice-president and treasurer was granted authority to negotiate with Marathon Oil and the city of Fairborn their request for an easement across the eastern portion of

the campus when the Building and Grounds Committee were satisfied that all of the university's requirements were met. The committee did not approve the easement as it was first presented as it would have crossed a bridle path through the woods. Subsequent to the meeting, the location of the easement was changed to an area that does not disturb the forest. In addition, the committee suggested that some substantial financial benefits, possibly in the form of scholarship funds or other tangible assets, be made to Wright State University.

#### *Proposal for Highway Right-of-Way Across Campus*

Drawings of three plans for the proposed highway right-of-way, Plans A, B, and C, were presented to the committee. Plan C was felt to be the least desirable by the committee. Since an immediate decision was not of urgent necessity it was recommended that a scaled model of Plan B be made showing the actual location of the highway and the campus. The plan would be considered again by the committee and the Board of Trustees at a subsequent meeting.

#### *Disposition of Celina's Downtown Property*

The Western Ohio Educational Foundation is currently desirous of selling this property and wishes to have the funds from the sale returned to the foundation for its future use for the Celina branch campus. The committee is in agreement that the property should be sold and recommends that some of the university administrators meet with Mrs. James and members of the WOEF to resolve conditions of the sale of the property. Also, it was recommended that an investigation of the legality of Wright State University returning the property or the proceeds of such a sale to the Western Ohio Educational Foundation be made.

#### *Revised Insurance of Buildings*

A review of the current insurance status of buildings on campus was made to the committee along with the state's posture regarding insuring buildings constructed with state funds. Mr. Crowl recommended the pursuit of legislation to assure coverage of state-owned buildings and further recommended that bids for insurance of both publicly and privately owned buildings, with approximately \$100,000 deductible on state-owned buildings, be obtained.

As a result of this meeting the administration is following up on the committee's recommendations and will report to the board at a subsequent meeting.

#### **Student Affairs Committee**

Mr. Crowl reported that he and Mrs. James met with the Student Affairs Committee on Wednesday, May 30, 1973. Both student representatives, Jamie Gregory and Rick Minameyer, and Mr. Pollock and Dean Lyon were present. The minutes of the meeting with recommendations from the committee were distributed to members of the board for review and consideration at a subsequent meeting of the board.

## REPORT OF THE PRESIDENT OF THE UNIVERSITY

### Status Report on the Planning Study for a Medical Program at Wright State

Mr. White reported that the amended substitute House Bill 86 is now before the Senate Finance Committee. As it came to the Senate it included \$250,000 for the southwestern medical program and \$250,000 for the northeastern program. The Senate Finance Committee expects to put full funding into the bill.

### Approval of the 1973-74 Fee Structure

Mr. White reported that at the April 11, 1973, meeting, the board approved a preliminary budget for the operation of the university in the 1973-74 fiscal year.

In the absence of final action by the Ohio General Assembly on the Appropriations Bill for the coming biennium, Mr. White recommended that for the main campus the undergraduate fee structure be raised by \$5.00 for the Instructional Fee and \$5.00 for the General Fee. This would bring the fees, effective with the fall quarter, 1973, to the level of \$210.00 Instructional and \$50.00 General, which are the levels established for the current biennium.

Mr. White stated that it is anticipated that such limits will be contained in the final version of the Appropriations Bill for the biennium; however, such fee increases are contingent upon the legislation and approval by the Ohio Board of Regents. The fee structure would be effective with the fall quarter and Mr. White recommended the board's approval.

Mr. Rike moved the approval of the fee structure as outlined above. The motion was seconded by Mr. Crowl and unanimously approved by a roll call vote.

### Granting of Degrees

Mr. White reported that section 1.03 of the Wright State University Code of Regulations provides that the board shall grant degrees after due consideration of nominations by the faculty. Wright State granted approximately 163 degrees in December of 1972 and for the first time approximately 190 in March of 1973. Mr. White recommended the board's confirmation of the attached list of degrees granted which includes candidates who were nominated by the faculty at their meeting on May 8, 1973, to receive degrees at the Commencement exercises on June 10, 1973.

Mr. White stated that including the December 1972 and March 1973 degrees Wright State expects to award approximately 1248 degrees for the 1972-73 academic year. Since applications for degrees are accepted in advance, Mr. White requested the authority to make changes in the list to correct errors, to add or delete names of persons who unexpectedly do or do not meet all requirements for graduation.

[The list of graduates appears in the Appendix.] Mr. Ross seconded the motion which was unanimously approved by voice vote.

Mr. White reported that since the last meeting of the Board of Trustees, the university, through the Office of Research Development, has entered into nine research contracts and grants, and Mr. White recommended ratification of the following contracts and grants:

##### *Project #246—New Government Research Grant*

Mr. Jeffrey moved the ratification of the above research contracts and grants. The motion was seconded by Mr. Crowl and, by roll call vote, the motion was unanimously ratified.

**Progress Report of Projects Under Construction**

Mr. White made the following report on the progress of projects currently under construction, noting that due to strikes by the plumbers and steel workers, projected completion dates are uncertain.

*Library*

The last nine panes of tempered glass are scheduled to arrive on the job the week of June 4, 1973. Both the architect and the contractors feel that the building can be completed with carpeting thirty calendar days subsequent to the arrival of the glass.

*Physical Education Building*

Final acceptance inspection of the building was accomplished on May 25, 1973, with the deficiency items noted. The natatorium drain has been replaced but we are still experiencing a supply leak which must be corrected before the concrete is replaced.

*Creative Arts*

At a special contractors meeting on May 17, 1973, the contractors were advised that a final acceptance inspection would be conducted on the art/art education wing of the building on June 15, 1973. As a result, the electrical contractor currently has fourteen electricians hanging fixtures preparatory for the final. June 30, 1973, has been scheduled by the state architect for acceptance of the music wing of the building, excluding the concert hall. Final acceptance of the theatre portion is scheduled for the third week of August.

*Modifications to Millett Hall*

Bids were opened on May 30, 1973, for this project and the apparent low bidders were from 29%-62% over the associate architect's estimate. The Controlling Board request was filed on May 31 to award contracts on the base bids minus proposed add alternates. Discussions with the associate architect and with various contractors and the state architect indicate that prospective contractors are inflating their proposals because of the Occupational and Safety Hazards Act, the Equal Employment Opportu-

nities requirements, the uncertainty of labor costs in view of new union contracts due in the near future, the short time specified to accomplish the work, and the uncertainty on the part of the contractors on what might be involved when walls and ceilings are removed and existing utility systems are exposed.

*Brehm Laboratory*

This building is now under roof but progress is extremely slow because of the inability of the contractor to backfill against the foundation because of mud. Weather permitting, the project should be ready for final acceptance in mid-July. On June 1, 1973, the plumbers, refrigeration workers, and iron workers went on strike. What effect this will have on our construction progress cannot be ascertained. Should pickets be placed at the construction entrance all construction would undoubtedly cease until contractor settlements are reached.

**Report on Investments**

A list of the university's investments dated May 3, 1973, as submitted to the board, was received and ordered to be filed with the official records of the Board of Trustees.

---

**UNFINISHED BUSINESS**

There was no unfinished business for discussion.

---

**NEW BUSINESS**

**Date of Next Meeting**

The next meeting of the Board of Trustees has been scheduled for Friday, September 14, 1973.

Mr. Oelman thanked Mr. White for his contribution to the university during this interim period that Mr. White served as acting president for the university. Mr. White acknowledged Mr. Oelman's expressions of appreciation.

Mr. Oelman welcomed Dr. Kegerreis as Wright State's new president.

---

**ADJOURNMENT**

The meeting was adjourned at 3:15 p.m.
